FACTORS THAT AFFECT YOU

Below are the list of things that you are exposed to each of these factors may affect you in a particular way. Please write in what way you are affected by each of the following. Do you feel worse or better in any way from each of the factors?

For instance take the factor "sun". Suppose by going in the sun you get a headache then write "Headache" opposite to "Sun".

Take another example: If in hot weather you feel uneasy, then write "Uneasy" opposite to "Hot Weather" in the column.

In this way write the effect of each factor on you. Especially write the effect each factor has on your main complaints. For instance if your main complaint is Asthma and this is worse when lying on the back then opposite to "lying on the back" write "Asthma becomes worse".

Sometimes one factor may make you feel worse in some respect, and better in some other respect. For instance cold air may cause headache but make you feel better in general. If this is so, please mention this difference clearly.

This section is most important. Do not go through it hurriedly. Think carefully about the effect of each factor before you write.

HOW TO DESCRIBE YOUR COMPLAINTS

In homoeopathy, prescription is based on precise details of various symptoms from which you suffer. To tell or write to a homoeopathic physician “I have a headache”, “an eruption”, or “cough”, would not be enough. If you say “I have a headache with sharp shooting pains in the left side of the head and temple, these pains always come on when the slightest cold air strikes the head, the pains are much less when lying down and covering up the head warmly and much worse when rising up, walking about or when the head becomes cool”, only then have you given all the information required for making a good homoeopathic prescription. *The success of the prescription depends, largely, on how detailed is your description of the symptoms.*

We require the following details about your symptoms.

LOCATION : Please give the exact location of sensation, pain or eruption. Also describe where the pain or sensation spreads. Please use the figure on page 24 to indicate location.

SENSATION : Express the type of sensation or the pain that you get in your own words however simple or funny it may seem. You may have a sensation that a mouse is crawling or the heart was grasped by an iron hand or you may have a pain which is cutting, burning jerking, pressing. Express the sensation or pain as it feels to you.

WHAT MAKES YOU WORSE OR BETTER: Many factors are likely to influence your trouble. Some factors may cause the trouble to increase and some factors may relieve the trouble. A detailed list of the factors is given on pages 14 to 16. Please refer to them when describing each of your troubles and indicate which factors make the complaint better or worse.

DISCHARGES: You may have a discharge from ulcers, fistula, eruptions on the skin, lungs, eyes, nose, ears, mouth, private parts, etc. Please describe your discharge under the following aspects.

- * The quantity and the time or condition under which the quantity varies i.e. when is it better or worse, increases or decreases ?
- * The consistency; Is it thin or thick, stringy, or clotted?
- * Is it like jelly, white of an egg, like water, sticky, forming a scab etc ?
- * The odor, what does it remind you of?
- * Does it make the parts sore, and in what way?

Please mark in the below figure, the locations of your trouble and write the exact sensation or type of pain you experience at those spots. For example if you have throbbing pain on the right side of you head please mark as shown →

IN THE FOLLOWING PAGES PLEASE DESCRIBE EACH OF YOUR COMPLAINTS IN
DETAIL IN THE MANNER DESCRIBED ON PAGE 24

COMPLAINT NO.	WHERE IS THE TROUBLE	WHAT EXACTLY DO YOU FEEL OR HAVE THERE	WHAT ARE THE FACTORS THAT MAKE THIS TROUBLE BETTER OR WORSE
